

Cynthia Erickson

On December 5, 2023 Cynthia (Cindy) Erickson who had suffered from acute joint pain since she was a teenager, “hobbled” into the AtlantiCare Musculoskeletal Institute, one of the participants of the 2023 Operation Walk USA program. Then later in the day she returned home with a brand-new knee, ready to enjoy the holidays with her family—and with a higher quality life than she has had in decades. Thank you, Dr. Fabio Orozco (Orozco Orthopaedics), surgical Team and AtlantiCare!

With Dr. Orozco and the Team.
